

HERRAJES.

TRIVEL - Herrajes para puertas templadas

SERIE 9000.

Herrajes para grandes dimensiones

- Serie indicada para instalaciones con puertas de grandes dimensiones y gruesos de vidrio importantes.
- Placas de apriete al vidrio fabricadas con chapa de acero inoxidable AISI 304 de 6 mm de espesor.
- Tornillería hexagonal fabricada en acero inoxidable AISI 303.
- Núcleos internos reforzados fabricados en acero inoxidable AISI 303.
- Pernio alto con núcleo de giro a rodamiento de agujas.
- Ejes de giro de Ø10 mm.
- Posibilidad de escoger entre tres centros de giro diferentes en la misma pieza (54 mm, 106 mm, 158 mm), evitando el tener que desplazar el herraje del canto de la puerta.
- Núcleo leva para los modelos de cierrapuertas R regleta y C cuadradillo 16/19.
- Acabados: inoxidable brillo - inoxidable satinado.

OPCIONES BAJO PEDIDO:

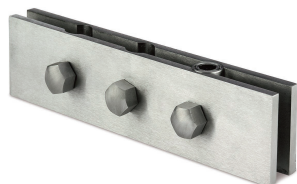

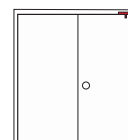

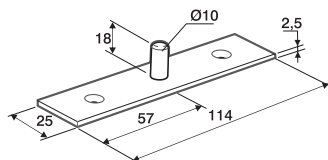

- Otros acabados: oro - veloux - colores RAL - latón pulido
